PROFILE

Full-stack developer who has built and deployed web applications using React, TypeScript, Node.js, Express, and MongoDB. Experience covers the whole stack: REST APIs, database design, authentication, and responsive frontends. Recent work includes a multi-tenant SaaS platform with role-based access control, and a client web application currently in production use.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, HTML, CSS

Frontend: React, Vite, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, Postman, Jest

Other: JWT, Zod, Cloudinary, Responsive Web Design

PROJECTS

Plinth — Multi-Tenant SaaS Platform

React 19, TypeScript, Node.js, Express 5, MongoDB, Zod, Jest

- Built a full-stack SaaS platform for managing clients, projects, tasks, and business metrics across multiple tenant workspaces.
- Implemented workspace-based multi-tenancy and role-based access control (RBAC), with JWT authentication and server-side authorization on all protected routes.
- Built a metrics dashboard using MongoDB aggregation pipelines to show task trends, completion rates, recent activity, and at-risk projects.
- Enforced data integrity with Zod request validation and covered core flows with Jest/Supertest integration tests, including authentication, authorization, tenant isolation, and data lifecycle behavior.

Alaala Collections — Client Web Application

React, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, Cloudinary

- Developed and deployed a full-stack event management website for a paying client, covering service discovery, event galleries, reviews, reservations, and contact features.
- Built a responsive React interface with reusable, typed components optimized for mobile, tablet, and desktop.
- Implemented a Node.js/Express backend with MongoDB for reservations and content management, using Cloudinary for event media storage and delivery.
- Deployed the application to production on Vercel and Render; the client uses it as their live website.

EDUCATION

Pamantasan ng Lungsod ng Valenzuela — Maysan, Valenzuela City

Bachelor of Science in Information Technology | Sept 2024 – Present
